

A regulatory meeting is the wrong time for an original thought.

At 3D Communications, our people, process, and technology prepare you to win at FDA and EMA – whether face-to-face or in a virtual environment.

Our scientific and communications experts start with the end in mind.

They help you pressure-test your data, develop the right story, and communicate with confidence – so you succeed with your most demanding and skeptical audiences.

Regulatory Meetings and Interactions

FDA

Pre-Submission Meetings

Advisory Committee Meetings

CHMP

SAGs

PRACs

Oral Explanations

Call on 3D at every stage of the approval process.

- Review and analyze clinical data
- Guide regulatory strategy
- Set communications strategy
- Profile regulatory decision-makers
- Organize and lead full-scale mock rehearsals
- Develop briefing materials, messages, presentations, slides, Q&A
- Coach moderators, presenters, responders

Our proprietary technology suite is purpose-built and practical to use – so you can practice and perform from anywhere in the world.
