

# A Regulatory Meeting is the Wrong Time for an Original Thought.

At 3D Communications, our people, process, and technology prepare you to win at FDA and EMA – whether face-to-face or in a virtual environment.

## Regulatory Communications

### US Regulatory

FDA Advisory Committee/  
Device Panel Meetings

FDA Pre-Submission Meetings

FDA Dispute Resolutions

CDC ACIP Meetings

### European Regulatory

EMA-CHMP Meetings

Marketing Authorisation Applications  
Question/Issue Responses

Rapporteur/Co-Rapporteur  
Interactions

**3D helps you pressure-test your data, develop the right story, and communicate with confidence – so you succeed with your most demanding and skeptical audiences.**

- Review and analyze clinical data
- Guide regulatory strategy
- Set communications strategy
- Profile regulatory decision-makers
- Organize and lead full mock rehearsals
- Develop briefing materials, messages, presentations, slides, Q&A
- Coach moderators, presenters, responders

Our proprietary technology suite is purpose-built and practical to use – so you can practice and perform from anywhere in the world.

## About 3D

3D Communications (3D) specializes in preparing pharmaceutical, biotech, and medical device companies for high-stakes communications, including US and EU regulatory meetings, investor/analyst communications, payer negotiations, media interviews, speaking engagements, and stakeholder interactions.

Our team of science, communications, and regulatory experts focuses on strategy, messaging, visual storytelling, and coaching to help clients excel with both virtual and in-person communications.

We leverage our proven 3D ACT® process and state-of-the-art technology to transform complex data and information into clear, credible, and compelling communications that can be delivered authentically, confidently, and with purpose.
